

PROSYNC[®]

Automated cash drawer that is always in balance.

The Cassida Sync[®] is a powerful, yet cost-effective solution that redefines cash management through cutting-edge innovation. Weigh technology that instantly counts your banknotes and coins, providing real-time cash processing with unrivalled accuracy. The data collected by Sync[®] is fed into a powerful back-office system for in-depth analysis and insight into all your cash operations, all the while ensuring maximum simplicity and user-friendliness.

Highlights:

- Virtually eliminate cash losses at the register
- Automatic balancing – no need to count cash to balance each shift
- Easily Identify transactions with cash discrepancies
- Provide cashier accountability visibility with lane accountability efficiency
- End of the shift reconciliation takes only minutes to complete

At a glance:

- *Real-time remote monitoring & visibility*
- *Optimization of day-to-day tasks and cash flow requirements*
- *Traceability and security of information*
- *End-of-day reconciliation support*
- *Customizable reporting*
- *Daily indicators management*

Specifications
